FIELDMARK DEFENSE SYSTEMS

U.S. defense soft-goods sourcing, configuration and program coordination

CAPABILITY STATEMENT
Palm Beach County, Florida

WHAT FIELDMARK DOES

FieldMark Defense Systems develops and sources practical sewn soft-goods and equipment-organization products for U.S. defense users. FieldMark focuses on build-to-print and configuration-driven products where fit, accountability, labeling, packaging, small quantities, and repeatability matter.

CORE PRODUCT FAMILIES

- Fitted military covers and protective textile components
- Tool, spare-parts, cable and equipment storage bags
- Pouches, kit organizers and reusable accountability systems
- Specialty webbing and strap assemblies (non-safety-critical focus)
- Shelter replacement textile components and retrofit soft goods
- UAS / radio / cable-organization accessories

PRODUCTION MODEL

FieldMark works with U.S. contract-sewing and specialty soft-goods manufacturers matched to the required process, material, volume and technical-data package. Berry-capable sourcing is pursued when required by the solicitation or customer flow-down. Final compliance is verified per opportunity and production source.

HOW FIELDMARK ADDS VALUE

- Opportunity screening and technical-data review
- Configuration definition, fit and organization concepts
- U.S. manufacturing-source coordination
- Prototype-to-production support
- Packaging, labeling and accountability planning
- Prime / distributor / OEM teaming for sewn components
